Hi Laurent,

Attached please find the additional information I promised to send following our earlier discussion:

- EPA's PFAS Significant New Use Rules: [40 CFR §721.9582](#)
- Chrome Rule – Final
- 2011 Inventory Report on AFFF in US:
<http://chm.pops.int/TheConvention/POPsReviewCommittee/Meetings/POPRC7/POPRC7Followup/Requestsforinformation/RequestsforcommentsbyPOPRC7IWGs/CommentsonPFOSinopenapplications/tabid/2746/ctl/Download/mid/8994/Default.aspx?id=12&ObjID=14391>
- PFOS in China – presentation from 2013
- For additional questions about PFOS in AFFF, please contact Dr. Jimmy Seow (Jimmy.Seow@DER.wa.gov.au) who's an international expert on this use.

Let me know if any other questions.

Best,

Toni Krasnic

Hi – I said I'd call you this morning but had not counted with an early morning dentist appointment that's left my mouth absurdly numb... Will try this afternoon.

Best regards,
laurent

Hi Laurent,

For any questions about the alternatives for chrome mist suppressant use, please contact Phil Mulrine (919-541-5289; mulrine.phil@epa.gov) who was the EPA rule lead on the chromium plating NESHAP.

For any other questions related to PFOS, please feel to call me any time tomorrow or Thursday.

Thanks,

Toni Krasnic

Dear Mr Wolf and Mr Krasnic,

Marianne Bailey gave me your contact details a few months ago.

I work at the World Bank where we are preparing a project on PFOS phase out in China in the context of the Stockholm convention and with support from the Global Environment Facility.

I have a few questions that came up in the process of internal review for our project, as well as during preparation more generally, where it would be very helpful to seek your views to better understand the situation in the US.

In particular regarding safety and efficacy of alternatives for chrome mist suppressant and the situation generally with chrome plating industry, as well as any cost benefit of PFOS that might have been undertaken in support of regulation here in the US.

Please let me know if it would be possible to give you a call at some point during the week.

Look forward to hearing from you.

Best regards,

Laurent Granier

Hi Laurent,

Sorry for delay in getting you an EPA contact on this. The right people to reach out to are:

Joel Wolf
Chief, Existing Chemicals Branch
WJC East, Room 4121A
202.564.0432, wolf.joel@epa.gov

And in same office:

Toni Krasnic
Krasnic.toni@epa.gov

They are aware of your request and happy to discuss with you.

Best,

Marianne

Dear Marianne,

I hope this mail finds you well.

We are supporting China with a GEF grant to address PFOS. Alternatives for metal plating is an interesting not entirely straightforward matter. I was hoping you could put us in touch with an EPA (or other) industry expert to better understand the situation in the US.

Thanks in advance and best regards,
Laurent
